All trainers at Westminster are qualified to train the riders they train. We assure that each lesson is appropriate for the rider. Our main concern is the safety and enjoyment of the rider! To assure safety, beginner lessons will always have a lower trainer/rider ratio. You are always encouraged to talk to trainers and staff regarding the progression of your rider. Actually, we encourage this communication. It benefits the rider and the trainers. There is a natural progression from beginner to advanced. Please understand that the more advanced trainers (e.g., Ashley) will have larger lessons with larger jumps and more difficult exercises.
